PROFESSIONAL EXPERIENCE

Software Engineer | eForte / InsuranceMarket.ae (myAlfred)

Remote - Dubai, UAE | Oct 2023 - Present

Technologies: Laravel, Node.js, Next.js, React.js, Inertia.js, Vue.js 3, RESTful APIs, MySQL, MongoDB, CRM integration

- Automated Motor Line of Business workflows and integrated multiple partner APIs to fetch and update policy data directly in the CRM, reducing advisor processing time by 60-70%.
- Reduced policy issuance turnaround from approximately 15 minutes to 2 minutes by eliminating repetitive data entry on external partner portals.
- Implemented AML API integrations to automate customer compliance and risk verification during onboarding and policy renewal.
- Developed KYC document automation that dynamically generates customer documentation and reduced manual document preparation time by more than 80%.
- Built real-time email notifications for policy updates and attached documents, eliminating manual customer communication workflows.
- Delivered system enhancements, bug fixes, and performance optimizations while collaborating with advisors, QA, and product teams for reliable production releases.

PHP/Laravel Developer | JDUKHI

Karachi, Pakistan | Jan 2023 - Oct 2023

Technologies: Laravel, PHP, Node.js, CodeIgniter 3, RESTful APIs, MySQL

- Enhanced a School Management System by developing admission automation, fees management, exam scheduling, results processing, and accounting modules.
- Reduced manual admission data entry by approximately 50% through dynamic validation and streamlined enrollment workflows.
- Improved a Library Management System with seller and buyer portals, order workflows, accounts, payment tracking, and invoice generation.
- Optimized database queries and caching to improve page-load performance and implemented secure authentication and role-based access control.
- Reduced administrative workload for school and library staff by an estimated 40-50% through workflow automation and usability improvements.

Laravel Developer | MS Global Inc.

Karachi, Pakistan | Jul 2022 - Dec 2022

Technologies: Laravel, PHP, MySQL, REST APIs, Google Maps API, Stripe

- Developed Construction SubFinder, a US-based B2B platform connecting general contractors and subcontractors using location-based matching.
- Integrated Google Maps Geolocation API for proximity-based contractor discovery, reducing contractor search time by more than 70%.
- Built KPPR Event & Marketing features for location-based event discovery, ticket booking, seat management, and Stripe payments.
- Improved mobile responsiveness and optimized database queries to accelerate search and booking workflows.

PROFESSIONAL EXPERIENCE - CONTINUED

PHP/Laravel Developer | Devoppia Pvt. Ltd.

Karachi, Pakistan | Jan 2022 - Jun 2022

Technologies: Laravel, PHP, WordPress, RESTful APIs, MySQL

- Developed features for a Malaysian university Learning Management System, including exam scheduling, online assessments, results processing, and reporting.
- Enabled real-time grading and report generation for instructors, reducing manual exam-processing effort by approximately 70%.
- Built an online learning portal with video courses, quizzes, and student progress tracking, and collaborated with QA and design teams to improve reliability and usability.

PHP/Laravel and E-Commerce Developer | Truly Komal

Karachi, Pakistan | Jan 2020 - Jan 2022

Technologies: PHP, WordPress, Shopify, Drupal, REST APIs

- Maintained and optimized WordPress e-commerce websites, including trulykomal.com and kohasaa.com, improving performance and site usability.
- Migrated two e-commerce stores from WordPress to Shopify to modernize storefronts and simplify product and order management.
- Developed and maintained the Drupal-based trulyexpress.com e-commerce portal.
- Integrated Leopard Courier and Call Courier APIs for automated shipment tracking and shipping-label workflows.

EARLIER EXPERIENCE

Coordinator | Lucky Textile Mills Pvt. Ltd. | Karachi, Pakistan | Jun 2019 - Dec 2019

- Managed inventory reconciliation and raw-material tracking using Excel formulas and pivot tables, improving stock accuracy and reducing reconciliation time by 35%.

IT Coordinator | Brookes Pharma Pvt. Ltd. | Karachi, Pakistan | Dec 2017 - Nov 2018

- Provided technical support, resolved network issues, maintained documentation, and managed item-code creation and data entry in Oracle EBS.

Data Entry Operator | Manhattan Data Inc. | Karachi, Pakistan | Feb 2015 - Dec 2017

- Performed high-volume data entry and dataset verification with 99.9% accuracy using Microsoft Excel and proprietary software.

EDUCATION

Bachelor of Science in Computer Science

ILMA University | Dec 2024 - Present

Diploma of Associate Engineer (CIT)

Sindh Board of Technical Education (SIMSAT) | Jan 2017 - Sep 2020

SELECTED PROJECTS
